Utilization of modern day technology is nowadays considered to be the mainstream for the growth and advancement of businesses, organizations and even countries. It is a must due to its proven contribution to progress and prosperity.

To contribute to the modern technology revolution, AFLAK founders have chosen the fields of retail solutions, access control, office furniture and partitions to be the primary concern and areas of specialization of the company.

To the above regards, AFLAK was established in the year 1996 as a sole proprietary establishment and converted to a limited liability company under the name of AFLAK Electronic Industries Company.

AFLAK aims to be renowned name in designing, developing and providing user-friendly solutions with the local customers needs and requirements always in mind.

One of AFLAK priorities is to remain on the lead and work harder to exceed the expectations of its customers by always bringing to their fingertips the latest technologies in the areas of specialization. Proactive mindset is a vital component of AFLAK culture.

The Organization Structure of Aflak Electronic Industries Company consists of eight divisions: Design & Development, Sales & Marketing, Commercial Projects, Technical, Finance, Logistics, Administration & Personnel & Branch Network. Each one is managed by AGM reporting to the General Manager. Divisions are composed of departments and sections with specific responsibilities and authorities for defined sets of functions. Each department is being managed by Department Manager reporting to their respective AGMs or DGMS. Aflak Electronic Industries is one of the few Saudi companies that acquired the ISO-9001-2015 certification and Microsoft certified partnership. Aflak Electronic Industries abounds in technical expertise in its chosen fields.
Quality system is an issue that is extensive to present, especially of business organizations like Aflak that Designs, Develops, Produces, Supplies, Install, Implements, Maintains and Support Solutions.

Aflak is full ISO-9001-2019 certified business entity, which brings a lot of confidence to whoever is dealing with Aflak at any level. Every level of our operations is governed by well-accepted international system and procedures, geared at living to our promise.
