

## Product Description

- Aluminum alloy case, anti-vandal
- Non-waterproof, indoor use
- 2000 users, support card, PIN, card + PIN
- Silica gel button/keys, digital backlit keypad
- WG26 input and output
- Built-in buzzer alarm for anti-tamper
- With doorbell key, can connect with external doorbell
- Adjustable door open time and alarm time
- Red, Yellow and Green LEDs display the working status

## Basic Info

Model NO.:S602EM

Access Control: Card + PIN

Keypad Button Material: Metal

IP Rating:IP68

Certification: RoHs, CE

Type: Password

Usage: Access Controller

Export Markets: Global

## SPECIFICATIONS

Card Type	EM
Frequency	125KHz
Working Voltage	DC 12V
Reading range	5~8cm
Operating Humidity	10%~90%
Alarm output load	≤20A
Door opening time	0~99s (adjustable)
Idle Current	≤30mA
Operating Temperature	-35~60 degree
Lock output load	≤3A
Short-circuit protection time	≤100 μs
Dimensions	120*58*20mm
Gross Weight	0.45KGS
